### **Summit Night Vision Group Announces L-3 EOTech Distributorship**

**Plano, Texas, October 20, 2011** – Summit Night Vision Group LLC announced today a new distributor agreement with the EOTech Division of L-3 Warrior Systems for EOTech’s holographic weapon sight product line.

Summit Night Vision Group was approved and contracted with L-3 EOTech due to its successful history with L-3 Warrior Systems in support of resellers and original equipment manufacturers seeking quality L-3 Warrior Systems products for military and commercial customers.

“Adding the L-3 EOTech products to our portfolio once again demonstrates Summit is continuously adding value and breadth of product mix for our customers. EOTech holographic weapon sights are highly respected and desired by Summit customers and end users worldwide. The EOTech sights are a great addition and very complementary to our night vision product offerings,” remarked Summit Night Vision Group’s President and CEO, Dean Cuzick (US Army Major, Ret.).

Summit Night Vision Group is a Service-Disabled Veteran-Owned Small Business that supports the Domestic U.S. and International commercial and government night vision industry. Summit is the market leader in wholesale distribution of L-3 Warrior Systems products such as L-3 Gen 3 image intensifier tubes, night vision system housings and shell kits, night vision accessory solutions, tactical laser pointers and illuminators, thermal imaging systems, infrared sensor cores and customer-branded night vision systems.
